SCIENTIFIC SEMINAR

STRUCTURAL PROTECTION OF ARCHITECTURAL HERITAGE: TOWERS AND CAMPANILI

Speaker: Prof. Ing. Angelo Di Tommaso

Accademia delle Scienze di Bologna

Tuesday, 6 may 2025

Time 14:30 – 16:00

Sala del Consiglio, Viale del Risorgimento 2 (II floor), Bologna

A look at bell towers and campanili in seismic areas: collapses and reconstructions. Collapse mechanisms and the evolution of structural protection techniques. Our towers: between protection efforts, monitoring methods, and collapse threats. Conservation needs and the role of modern protection technologies. The event is open to students, PhD candidates, and researchers interested in the preservation of architectural heritage.

Free admission until full capacity is reached.
