

37th cycle

Teaching activities scheduled for the 1st year (2021/22)

Course timetable

*The lessons take place in the District of Imola of the University of Bologna
(Plesso Vespignani, via Garibaldi 24, Imola)*

The teaching activities are available both in classroom and online in relation to the COVID-19 situation.

Compulsory courses

Month	date	time	Professor / Course
January 2022	18	9:30-13:30	MUZZI, TAGLIAVINI (Bibliographic services for research part A)
January 2022	25	14-16	BRAGADIN (Research Ethics)
January 2022	26	9-12	MANNERS (Use of statistical and data management software) 1 lecture
January 2022	31	14:30-18:30	MENCHETTI M. (Set up of a research protocol) ONLINE LESSON
February 2022	2	9-12	MANNERS (Use of statistical and data management software) 2 lecture
February 2022	9	9-12	MANNERS (Use of statistical and data management software) 3 lecture
February 2022	24	9-12	GORI (Bibliographic services for research part B)
April 2022	1	9-13	DINDO (International mobility guidance) *
May 2022	3	10-13	BENNI (Presentation of research findings) *
June 2022	10	9-13	TORREGGIANI (Geographical information systems) 1 lecture *
June 2022	13	9-13	GORI/FANTINI (Big data: data processing and use of statistical software for the management and construction of large databases to support research) 1 lecture
June 2022	14	9-13	GORI/FANTINI (Big data: data processing and use of statistical software for the management and construction of large databases to support research) 2 lecture
June 2022	15	10-13	MENCHETTI M. (Writing a scientific paper)
June 2022	17	9-12	TORREGGIANI (Geographical information systems) 2 lecture *
June 2022	24	14-17	TORREGGIANI (Geographical information systems) 3 lecture *
September 2022	15	14:30-18:30	MENICHETTI G. (Big data: applications in the medical and environmental fields) ONLINE

*complementary course for PON PhD students

Complementary courses

month	date	time	Professor / Course
January 2022	26	14-16	DINDO (Problems related to the introduction of exotic insects)
February 2022	1	11-13	BRAGADIN (Fundamentals of Project Management for the industrial sector and construction)

February 2022	25	9-11	GORI (Research ethics in the health/pharmaceutical field)
March 2022	17	10-13	BERTI (Functional clinical evaluation of patients affected by osteoarticular movement problems in relation to the urban environment and architectural barriers)
March 2022	17	14-18	ZAFFAGNINI (Computer-assisted minimally invasive surgery, current role and future prospects in orthopedics)
March 2022	22	11-14	MICUCCI (Food Chemistry: the first step for nutrition and health)
April 2022	11	9-13	BERTACCINI, CONTALDO (Problems related to the introduction on exotic plant pathogens)
April 2022	12	9-13	BARBARESI (Green systems in urban areas)
April 2022	13	11-13	BRAGADIN (Safety Management and H&S laws in the industrial sector and construction)
April 2022	20	10-13 14-17	GORI, FANTINI (The synergy between urban green spaces and a healthy city)
April 2022	27	9:30- 12:30 14-17	TOSELLI (Influence of genetic and environmental factors on nutritional status)
April 2022	28	10-13 14-17	GORI, FANTINI (Epidemiology of overweight and obesity: international, national and regional trends. Contrast strategies)
May 2022	4	11-12	BRAGADIN (Life Cycle Cost & Assessment for construction)
May 2022	24	10-13	DALLOLIO (Epidemiology and Determinants of Health) 1 lecture
May 2022	31	10-13	DALLOLIO (Epidemiology and Determinants of Health) 2 lecture
June 2022	1	9:30- 12:30	LANARI (Food policies and proper nutrition in the pediatric age) 1 lecture
June 2022	6	10-13	LANARI (Food policies and proper nutrition in the pediatric age) 2 lecture
June 2022	15	14-17	MENCHETTI M. (Lifestyle behaviors and mental health)
July 2022	5	9-12	PILLASTRINI (Functional clinical evaluation of patients affected by neurological movement problems in relation to the urban environment and architectural barriers)
September 2022	20	10-13	MERCOLINI (The pharmaco-toxicological analysis applied to bioactive compounds, herbal products and environmental samples)
September 2022	20	14-17	PROTTI (Green approaches for a sustainable development: new analytical strategies in medicinal chemistry)
September 2022 UPDATED	28	9-12	BUDRIESI (Nutraceuticals: a science between nutrition and medicinal chemistry)
