## Constituent Principles

The primary goals of the University are teaching and research, two inseparable activities aimed at pursuing critical knowledge open to dialogue and interaction between cultures, respecting the freedom of science and teaching.

Given its long-standing identity as a place of general studies, the University acknowledges the equal dignity and opportunities of all branches of learning that assure scientific and educational capital.

*University Statute, Constituent Principles, Art. 1 para. 1, 3*

## our Alma Mater in numbers

---

- More than 96,000 students, among which more than 9,000 international students (upd. March 2025)
- 1645 grants for PhD positions in the last 3 years
- 260 degree programmes
- 51 PhD/ Doctoral programmes
- 3382 Professors and 3235 members of the professional staff
- Many funded research projects (EU, national or regional funding, NRRP)
- 31 Departments; 11 of them have been selected as Departments of excellence by the Italian Ministry of Universities and Research (MUR)

**OUR DEPARTMENT**

# The Department of Electrical, Electronic, and Information Engineering «Guglielmo Marconi» (DEI)

- More than 150 Professors and Researchers
- 30 internal research laboratories
- 3 Inter-departmental research centers:
  - ARCES
  - CIRI ICT
  - CIRI HST
- External research centers associated:
  - CNIT
  - CNR
  - NITEL
  - ELMO
- 3 PhD Programmes:
  - ET-IT: Electronics, Telecommunications and Information Technologies Engineering
  - EIT4SEMM: Engineering and Information Technology for Structural and Environmental Monitoring and Risk Management
  - **IBES – Biomedical, Elettrical and Systems Engineering**

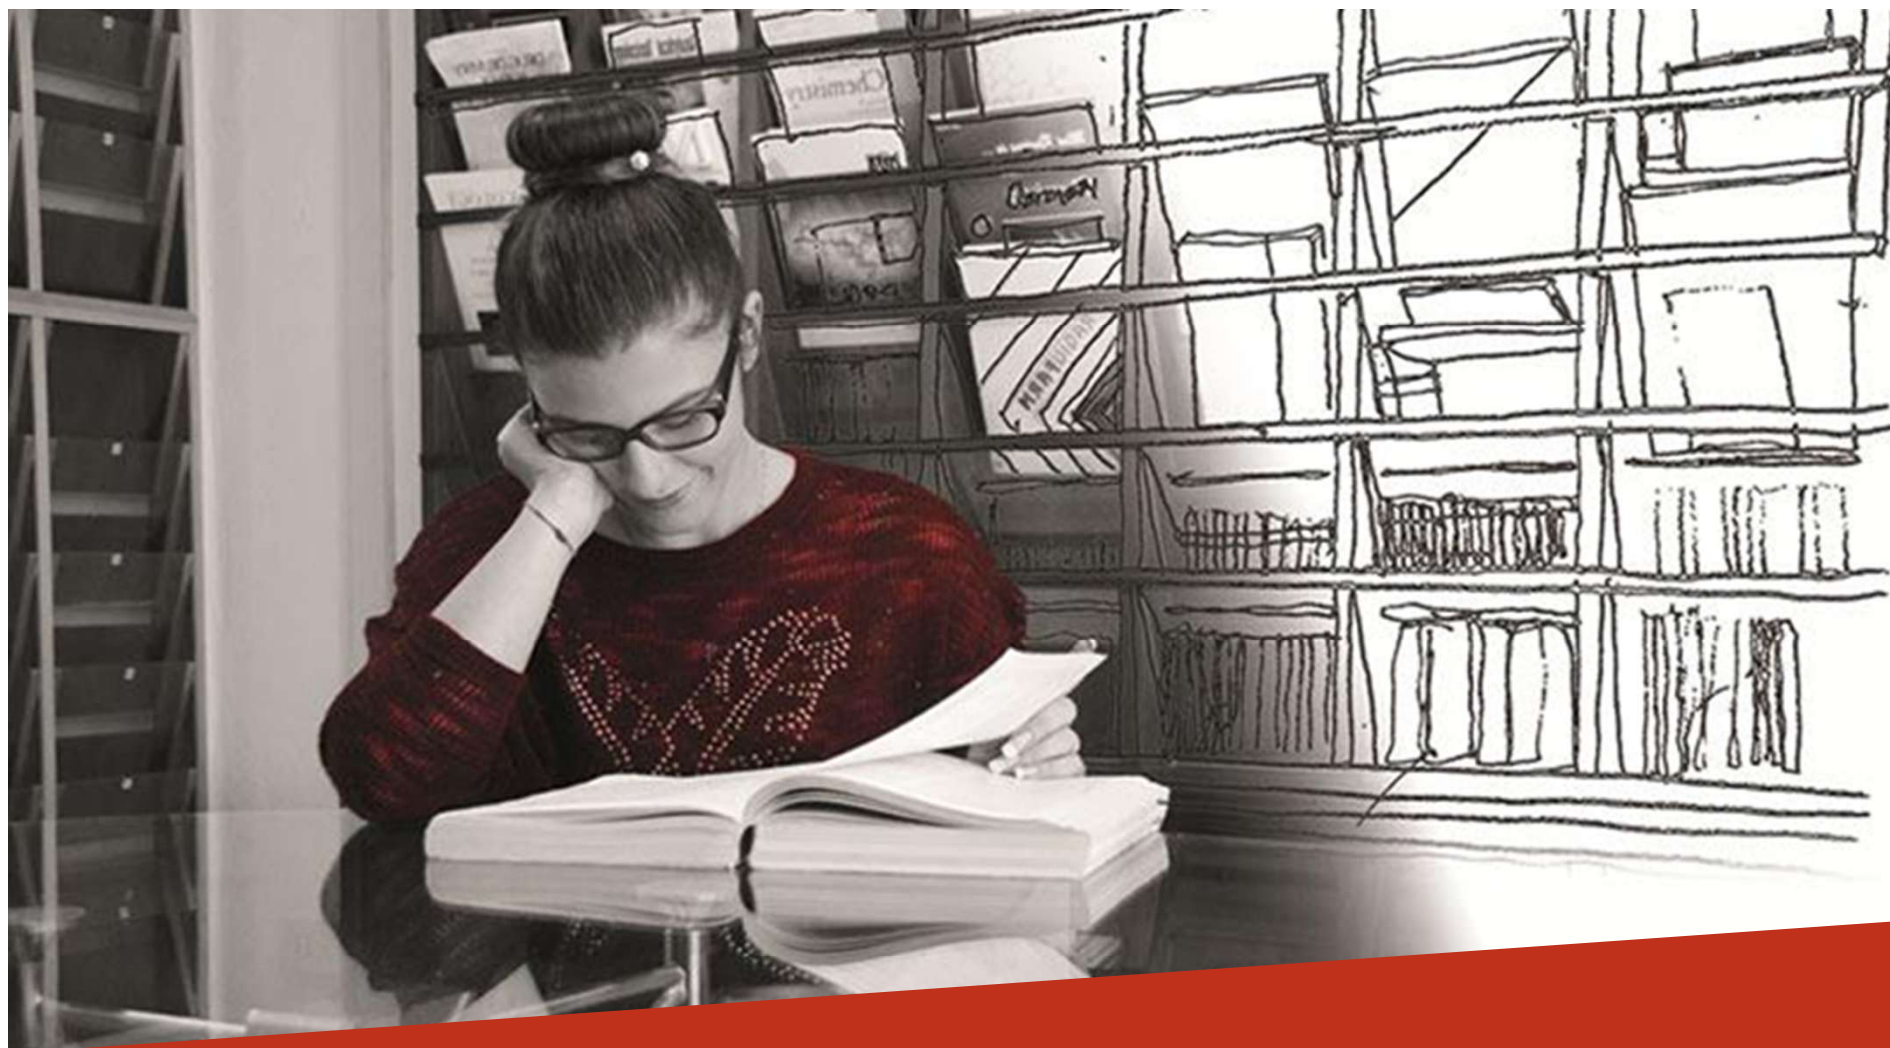

Bologna

Cesena

ALMA MATER STUDIORUM  
UNIVERSITÀ DI BOLOGNA

**IBES PhD Programme**

## IBES History and Scope

---

- IBES is the merging of three previously independent programmes:
  - Ingegneria dei Sistemi, later Automatica e Ricerca Operativa
  - Ingegneria Biomedica
  - Ingegneria Elettrica
  - all started from 1° Cycle (1983)
- “IBES” Alumni is a large and highly successful community including a large number of permanent academic staff and researchers employed in public and private industries worldwide
- Large number of students: >15 enrolled every year (some supported by external funds)
- Large number of potential PhD advisors (“IBES” disciplines are >60% of DEI staff)
- Wide scope and interdisciplinary nature
  - Automatic & Operations Research
  - Bioengineering
  - Electrical engineering
- Web site <https://phd.unibo.it/ibes/en>
- Email [dei-phd-ibes@unibo.it](mailto:dei-phd-ibes@unibo.it)

# IBES PhD Program: our numbers

---

## ➤ **3 Curriculum:**

- Automatic Control and Operations Research (ARO)
- Biomedical Engineering (BIO)
- Electrical Engineering (EE)

## ➤ **63 Enrolled PhD Students**

- **17 in Cycle 41**
- 24 in Cycle 40
- 17 in Cycle 39
- 5 in Cycle 38

☐ **22** Professors are **members of the IBES PhD program Board**

☐ **1 PhD Coordinator** and **3 Curriculum Advisors**

☐ **1 PhD Student Representative**

☐ **1 PhD Manager**

## IBES PhD Programme: contacts

---

- Coordinator: prof. **Michele Monaci** ([michele.monaci@unibo.it](mailto:michele.monaci@unibo.it))
- PhD Students' Representative: dott. **Davide Valenti** ([d.valenti@unibo.it](mailto:d.valenti@unibo.it))
- PhD Manager: dott.ssa **Francesca Lazzaretti** ([dei-phd-ibes@unibo.it](mailto:dei-phd-ibes@unibo.it))
- Curriculum Advisors
  - ARO → prof. **Alessandro Macchelli** ([alessandro.macchelli@unibo.it](mailto:alessandro.macchelli@unibo.it))
  - BIO → prof. **Simone Furini** ([simone.furini@unibo.it](mailto:simone.furini@unibo.it))
  - EE → prof. **Luca Zarri** ([luca.zarri2@unibo.it](mailto:luca.zarri2@unibo.it))

**N.B.:** official communications take place only through the **institution email address** (name.surname@unibo.it).

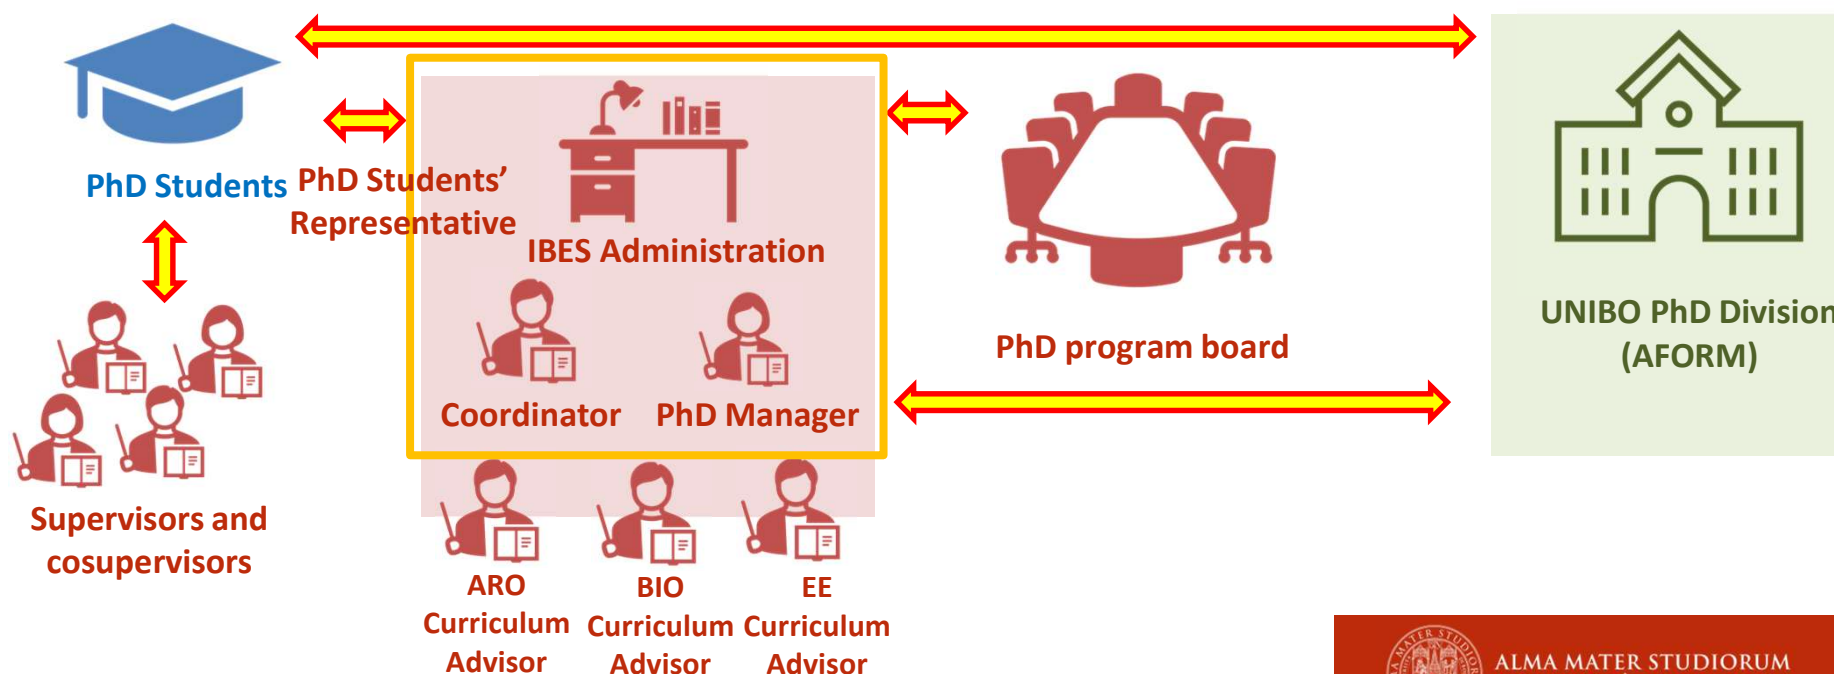

ALMA MATER STUDIORUM  
UNIVERSITÀ DI BOLOGNA

# IBES PhD Program: organization structure

When you have a question, first **check the [IBES website](#) and the [UNIBO PhD webpage](#)**.

If you do not find the answer, **please contact us** ([dei-phd-ibes@unibo.it](mailto:dei-phd-ibes@unibo.it)).

Some information can only be provided by the UNIBO PhD Unit. In that case, we may refer you to **AFORM – Corsi e carriere** ([aform.udottricerca@unibo.it](mailto:aform.udottricerca@unibo.it)).

## IBES PhD Program: laws and regulations

---

The rights and obligations of PhD students, as well as the details of all the stages in the PhD career, are outlined in the documents mentioned below.

➤ **UNIBO PhD Handbook** (available in [English](#) and in [Italian](#)).

**We strongly recommend you to read it carefully.**

- [Ministerial Decree n. 226/2021](#), issued by the Italian Ministry of University and Research (MUR) (**n.b.** available only in Italian)
- [Regolamento in materia di corsi di dottorato](#), issued by UNIBO (**n.b.** available only in Italian).

Moreover, **any decisions by the IBES PhD Board** will be published on the **IBES website** and notified to PhD Students via **UNIBO email**.

# Academic requirements

You can always check them [HERE](#)

(Besides daily cooperation with the supervisor)

**IBES PhD Students must:**

1. obtain at least **36 Doctoral Credits (DC)**;
2. carry out a **research period of at least 3 months abroad** ;
3. attend at least **1 Summer School or 1 National/International School**, whose topic is close to their own research topic;
4. present at least **1 paper at an international conference** on a topic related to their research topic
5. publish at least **1 article on an international journal** on a topic related to their research topic;
6. comply with the specific requirements for their curricula (if applicable).

## Doctoral Credits: introduction

---

- **Doctoral Credits (DCs)** measure the **workload** that a PhD Student is required to invest in **research and training** activities in order to obtain the PhD Degree.
- With regard to research training, one DC is equivalent to one European Credit Transfer and Accumulation System (ECTS) credit.
- PhD students must complete **60 DCs per year**, corresponding to **1,500 hours** of activity. **Each DC is worth 25 hours of the PhD student's total commitment (including both both classroom-based learning and self-study effort).**

Table A – Distribution of DCs between research and training		
Type of activity	Total number of DCs	%
Research activities	144	80
Training activities	36	20
Total	180	100

## Doctoral Credits: training activities

---

Training activities are divided into 5 categories:

1. Disciplinary and multidisciplinary training
2. Soft skills
3. Extra-curricular training
4. Dissemination
5. Supplementary teaching and tutoring

Each PhD course establishes the **minimum and maximum number of DCs** to be achieved in each category of activities.

<b>Table B – Requirements for DC distribution between training activities</b>		
<b>Type of activity</b>	<b>Minimum number of DCs</b>	<b>Maximum number of DCs</b>
Disciplinary and multidisciplinary training	12	21
Soft skills	3	6
Extra-curricular training	1	6
Dissemination	1	6
Supplementary teaching and tutoring	0	9

## Doctoral Credits: training activities

---

### 1. Disciplinary and multidisciplinary training

Training activities may cover:

- **specific topics** related to the research project, including aspects linked to significant scientific and technological developments;
- **broader topics** (multidisciplinary, transdisciplinary, and interdisciplinary), aimed at addressing training gaps relevant to all scientific domains included in the PhD programme and its curricula;

These activities may be organized either by the PhD Course or by the University. Doctoral students may also earn Doctoral Credits (DCs) through activities offered by **other PhD Courses** (possibly outside the University of Bologna) and/or from **first- and second-cycle educational programmes**.

## Doctoral Credits: training activities

---

### 2. Soft skills

Training activities in this area may cover:

- **Research valorization and management**, covering technology transfer, innovation management, data management, publishing policies, and open science.
- **Communication and dissemination**, including scientific writing, presentations, communication techniques, and advanced language skills.
- **Societal impact and research systems**, addressing the impact of science on society and sustainable development, and knowledge of European and international funding mechanisms.
- **Professional and ethical development**, including career planning, teaching training, and principles of ethics, gender equality, and research integrity.

These activities may be organized either by the PhD Course or by the University.

## Doctoral Credits: training activities

---

### 3. Extra-curricular training

Activities aimed at strengthening the growth of PhD students as active members of the scientific community may include:

- participation in national and international **training schools**;
- opportunities for **presenting and discussing research results**, such as PhD symposia or similar exchange events.

### 4. Dissemination

This category includes the participation of PhD students in congresses, conferences, workshops, and similar events **as speakers or poster presenters**.

### 5. Supplementary teaching and tutoring

This category refers to the participation of PhD students in supplementary teaching and tutoring activities, provided that such activities are consistent with and compatible with their ongoing research.

## Doctoral Credits: intermediate requirements

---

To ensure a balanced engagement in training and research activities, each PhD Course defines the **recommended number of DCs** to be earned for training activities in each year of the programme.

For each year, the Course also establishes a **minimum number of DCs**, below which a PhD student may be excluded from the PhD programme.

Table C – Training DCs to be acquired at the end of each course year		
Training DCs to be acquired	Recommended	Minimum
at the end of the 1st year	15	0
at the end of the 2nd year	24	9
at the end of the 3rd year	36	36

## Doctoral Credits: how to obtain them

---

- The number of DCs associated with curricular training activities is determined by taking into account both classroom-based learning and self-study effort.
- Each PhD Course establishes general criteria for allocating DCs to all types of training activities.
- When an activity - whether conducted at the University of Bologna or elsewhere - formally awards a certain number of ECTS credits, **1 ECTS credit is equivalent to 1 DC.**
- For activities that do not require independent study (e.g., attendance at a seminar or event), **1 DC is awarded for every 25 hours of participation.**

## Doctoral Credits: how to obtain them

<b>Table D – Correspondence between workload hours and acquired DCs</b>				
<b>Type of activity</b>	<b>Hours in class</b>	<b>Self-study hours</b>	<b>Total hours</b>	<b>DC</b>
Courses (disciplinary and multidisciplinary teaching)	5	20	25	1
Other disciplinary and multidisciplinary university courses (1st and 2nd level) *	10	15	25	1
Soft skills (attendance only)	25	0	25	1
Soft skills (with additional individual work) *	15	10	25	1
Laboratory courses	12,5	12,5	25	1
Seminars that require self-study	15	10	25	1
Seminars that do not require self-study	25	0	25	1
Supplementary teaching and tutoring	8	17	25	1
Teaching activities (cosupervision of bachelor/master theses, per single thesis, to be split among cosupervisors)	0	10	10	0,4
Extra-curricular training	1 day			0,4
Dissemination	1 day			0,4

## Doctoral Credits: general observations

---

- DCs may be earned for activities carried out **both at the University of Bologna and at external institutions.**
- Periods spent at institutions other than the University of Bologna do **not automatically yield DCs**, unless formal training activities are conducted at those institutions.
- The **acquisition of DCs** is verified during the year-end evaluation meeting of the PhD Board, which decides on the student's progression to the following year and admission to the final exam.

## Study Plan for the acquisition of DCs

---

PhD Students, **in agreement with their supervisors and co-supervisors**, define their specific training and research pathways in a flexible manner:

- selecting activities in terms of type and quantity;
- respecting the minimum and maximum DC requirements established by the Academic Board for each activity and each year of the programme.

To assist PhD students and supervisors in this process, starting this year we require the completion of a **Study Plan for the three-year period**, which must be **agreed upon and signed by the supervisor**.

The Study Plan is **not strictly binding** and **can be revised each year**. Its purpose is to:

- serve as a **formal agreement** between the PhD student and the supervisor;
- provide a **clear roadmap** and ensure that progress is monitored throughout the year, so that required credits and activities are completed in a timely manner.

**A template and the form for submitting the signed Study Plan will be provided together with a deadline.**

## Doctoral Credits: operative rules

The Operating Manual is available [HERE](#)

PhD Students must submit their requests through the [Dottorandi](#) app.

This tool is used also by:

- **supervisors**, for verifying the coherence of the requests with the student's research and, if necessary, requesting revisions;
- **the PhD Board**, for reviewing and possibly assigning DCs.

Training activities that are validated will be **recorded in the diploma supplement** at the end of the three-year PhD programme.

## IBES training activities

---

- Every year, the IBES PhD Board offers various courses and seminars addressed specifically to PhD Students.
- You can choose the ones that suit your academic needs in order to comply with the academic requirement n.1
- **The schedule of the training activities for the a.y. 2025/2026 will be made available by January 2026 [on the specific IBES webpage](#).** Further information about each activity will be published also on the [IBES Agenda](#) and sent by email before its start.

## Research stays outside Bologna (in Italy or abroad)

---

First of all, **you need specific authorization issued by the Coordinator.**

### Before starting

1. Collect the [supervisor approval](#) and the [invitation letter](#) by the research institute or industry
2. Fill in and sign the [authorization request form](#)
3. Send them to [dei-phd-ibes@unibo.it](mailto:dei-phd-ibes@unibo.it)

### During the stay

- If you are planning to prolong your stay, you need the PhD Board authorization. Fill the [specific request form](#) and send it to [dei-phd-ibes@unibo.it](mailto:dei-phd-ibes@unibo.it)

Up-to-date information is  
accessible [HERE](#)

ALMA MATER STUDIORUM  
UNIVERSITÀ DI BOLOGNA

## Mobility funding – 50% increase of the standard PhD scholarship

---

For periods of study and research abroad you may receive a financial endowment amounting to **50% of the standard PhD scholarship**, regardless how you are funding your PhD.

This cannot be obtained for periods shorter than one continuous month or longer than 12 months (or 18 months if you are in a cotutelle agreement), and in any case not in your country of residence.

In order to ask for this increase please follow the procedure explained on the [UNIBO Intranet](#) (n.b. available only in Italian) or contact AFORM – Corsi e carriere ([aform.udottricerca@unibo.it](mailto:aform.udottricerca@unibo.it)).

**N.B.** This kind of funding is **managed by:**

- **the UNIBO PhD Prog. Division** (AFORM) if you have a scholarship;
- **the Department** if you have a research grant.

## Mobility funding – Marco Polo Programme

---

The [Marco Polo Programme](#) offers **mobility scholarships** to promote research activities abroad for young UNIBO researchers and PhD students.

The Programme has **two calls**: one in May and one in November.

To apply for the Marco Polo Programme you need the authorization for spending a research period abroad issued by the Coordinator.

The deadlines and the application procedure are set by the Department Council, not by the IBES PhD Board. Therefore, please **submit your authorization request at least one week before the Marco Polo deadlines**.

**N.B.** This kind of funding is **managed by the Department**.

The Marco Polo grant and the 50% increase are compatible up to the maximum amount of Marco Polo assigned.

ALMA MATER STUDIORUM  
UNIVERSITÀ DI BOLOGNA

## Working while attending the PhD

---

Any time you are planning to accept a job assignment, **no matter if the employer is UNIBO**, you must complete the specific **authorization form** available on the [Dottorandi](#) app.

It will be reviewed by the supervisor and approved by the Coordinator.

Wait for the approval of the Coordinator **before** signing the contract.

**N.B.** Only working activities that are **strictly related** to your research duties can be authorized

Up-to-date information is accessible [HERE](#)

## 10% budget for funding research

---

- Starting on the first year, you have access to **a budget that amounts to at least 10% of the standard PhD scholarship**, regardless how your PhD is funded.
- This budget can be used to fund your PhD research (e.g., hardware) and training activities (e.g., travels, courses, conferences, both in Italy and abroad).
- All expenses must be approved by your supervisor and must comply with UNIBO rules.
  - In particular: before starting a research travel, please check the [Regolamento delle missioni, mobilità intra - ateneo e trasferte](#) and contact DEI-Missioni ([dei.missioniweb@unibo.it](mailto:dei.missioniweb@unibo.it)) in case any further information about the procedure to ask for reimbursement is needed.

Up-to-date information is  
accessible [HERE](#)

ALMA MATER STUDIORUM  
UNIVERSITÀ DI BOLOGNA

## 10% budget for funding research

---

### How does the 10% budget work?

If you have been granted a PhD scholarship funded by:

- an **external institution** or by **specific National and European Programmes** (e.g. NRRP), your 10% budget is set aside in a specific fund, accessible only to the Supervisor and/or the Coordinator, or even to the Student him/herself.
- **UNIBO or the Department**, your 10% budget is ensured through your supervisor's research funds. For instance, when your supervisor covers your travel expenses for a conference, you are already utilizing your 10% funds.

**N.B.** While this is a general rule, there may be specific cases that differ from what has just been mentioned. Please reach out to [dei-phd-ibes@unibo.it](mailto:dei-phd-ibes@unibo.it) for further information.

## Year-end evaluation

---

At the end of each academic year, the **Curriculum Board** and the **PhD Board** assess the research progress and overall work of PhD students and decide on their **admission to the following year**.

### **1. Submission of the annual report & summary**

PhD students submit a report summarizing their research work, activities and academic obligations, following the provided templates and instructions.

### **2. Presentation of Research Work**

They present their research progress to the Curriculum Committee.

### **3. Final Assessment and Admission**

The PhD Board reviews the evaluations from the Curriculum Committees and formalizes the student's admission to the following year. Attendance at this session is not required for PhD students.

## Admission to the final exam

---

At the end of the 3rd year, PhD Students are **evaluated for admission to the final exam**.

In addition to the year-end evaluation, the thesis is evaluated by **external examiners** who assign a score.

- If the score is not assigned, the defense is postponed for 6 months so that the thesis can be improved and re-evaluated.
- If the score is still negative, you cannot proceed any further.

PhD Students **defend their thesis before a committee** composed of professors from the University of Bologna and other research institutions.
