

The *Collegio Internazionale Ca' Foscari (CICF)* in Venice is offering 20 fellowship to doctoral students for attending the fourth session of the

Doctoral Colloquium in Risk Analytics

<https://landing.cafoscarichallengeschool.it/docra/>

Aims and scope

The Colloquium caters to Doctoral students interested in analytical (both theoretical and applied) methods for measuring, managing and mitigating risks. It is organized over four two-week sessions. The risks considered range from standard economic, financial or insurance applications, to emerging ones, such as environmental, climate and cyber risks. The approach is in-depth and multidisciplinary, with lectures, assignments and discussion of the results. Outstanding international scholars with long-standing PhD teaching and supervision experience deliver the courses.

Target

We seek **PhD students from Italian or Foreign Universities**, who remain affiliated with their Doctoral School. Students may apply for one session at a time, but must attend the whole session.

Up to five additional participants, including further Doctoral Students, Postdocs, Junior Faculty, or PhDs working in the industry, may be admitted at their own travel and accommodation expenses.

Content

Next session is

Networks and risk propagation (January, 18 - 31, 2026, Polo didattico San Basilio, VE)

a) Week 1: Remco Hofstad, Eindhoven U. of Technology,

Random Graphs and Complex Networks: Structure and Function

b) Week 2: Alireza Tazbah-Salehi, Northwestern University,

Production Networks

We offer

- an outstanding Faculty of leading researchers;
- work in a team with several, multidisciplinary doctoral candidates;

- no tuition fees, with
 - free accommodation on the Santa Marta campus;
 - travel expenses reimbursed (up to 200 euro).

Applications

are open, please visit
