

MISSION WITHIN A MISSION

It is also possible to set up a mission during an already ongoing mission (for example: you are in the Netherlands for a research stay [mission 1], but wish to attend a conference in Germany [mission 2]).

For this purpose, it is necessary to add a travel segment within the mission, but this procedure must be carried out at the same time you submit the authorization request for the first mission. For clarifications on this matter, please contact the Administrative Office at filo.amministrazione@unibo.it .
