

**Relazione scientifica annuale
Dottorandi in Scienze Veterinarie**

**CURRICULUM
SANITÀ ANIMALE
E SCIENZE CLINICHE**

**14/10/2025
Aula Messieri**

14.00 - 14.15

Dott.ssa Talita Bordoni - 39° ciclo

Antifungal Resistance in *Aspergillus fumigatus* and *A. terreus*: A One Health Perspective

14.15 - 14.30

Dott. Roberto Tomasoni - 39° ciclo

Innovative methods to evaluate the impact of poultry coccidiosis.

14.30 - 14.45

Dott.ssa Melania Carniato - 40° ciclo

Development of advanced preclinical models to study the impact of systemic diseases on the osteointegration of orthopedic implants.

14.45 - 15.00

Dott.ssa Martina Magliocca - 40° ciclo

Detection of tick-borne pathogens in bats and companion animals.

15.00 - 15.15

Dott.ssa Liliana Martella - 40° ciclo

Surveillance systems evaluation in the context of avian diseases and veterinary public health.

15.15 - 15.30

Dott.ssa Chiara Tugnoli - 40° ciclo

Realisation and management of an animal cancer registry in the Emilia-Romagna region.

15.30 - 15.45

Dott.Dott.Eugenio Faroni - 40° ciclo *Curriculum Scienze Cliniche*

Application of Artificial Intelligence for the Diagnosis of Feline Intestinal Small Cell Lymphoma.

15.45 - 16.00

Dott.ssa Maria Giulia Ferrari - 40° ciclo *Curriculum Scienze Cliniche*

Prospective flow cytometry characterization of different Immune-Mediated Hemolytic Anemia subtypes in dogs: prevalence and potential association with outcome.
