

Relazione scientifica annuale - Dottorandi in Scienze Veterinarie CURRICULUM SCIENZE DI BASE

14.00 - 14.15**Dott.ssa Antonia Cugliari** - 39° ciclo

Kinetic evidence with evaluation of the Supramolecular Organization of Mitochondrial Respiratory Complexes and mitovesicle production in animal models of complex human diseases.

14.15 - 14.30**Dott. Bálint Lóránt Hausz** - 39° ciclo

Phenotyping Uracil-N-Glycosylase knockout zebrafish.

14.30 - 14.45**Dott.ssa Laura Tovar** - 39° ciclo

Nutritional and reproductive strategies to cope with heat stress in dairy cows.

14.45 - 15.00**Dott. Niccolò Ian Vannetti** - 39° ciclo

Study of essential oils and natural substances in the modulation of welfare in farm animals using physiological biomarkers.

15.00 - 15.15**Dott.ssa Sofia Dindo** - 40° ciclo

Biological effects of in vitro nanoplastics internalization in mammalian gametes.

15.15 - 15.30**Dott.ssa Angelica Lembo** - 40° ciclo

Biochemical characterization of dairy industry by-products and their valorization in the perspective of circular economy.

15.30 - 15.45**Dott.ssa Gloria Metti** - 40° ciclo

Macroscopic and microscopic morphological features of the digestive and reproductive systems of the blue crab (*Callinectes sapidus*).
